Name_____

List at least five adjectives (describing words). For example: beautiful, old, rough, scary, rich

List five nouns (objects) For example: shoe, coffee, flower, phone, goat

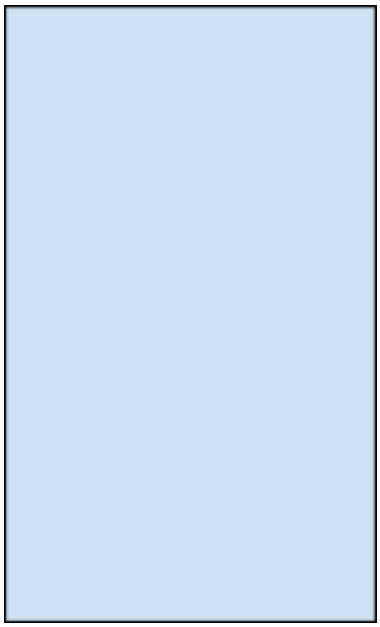
List five verbs (action words) For example: eating, writing, sleeping, arguing, building

An opposite is something that is totally opposed to the meaning of it's pair. For example, light is totally opposed to dark, high is totally opposed to low. To think of it in ELA terms, an opposite is a word's antonym. An antonym is a word's opposite in meaning to another…….slow and fast, rough and smooth.

Next to each word below list as many opposites to that word as you can, the more the better.

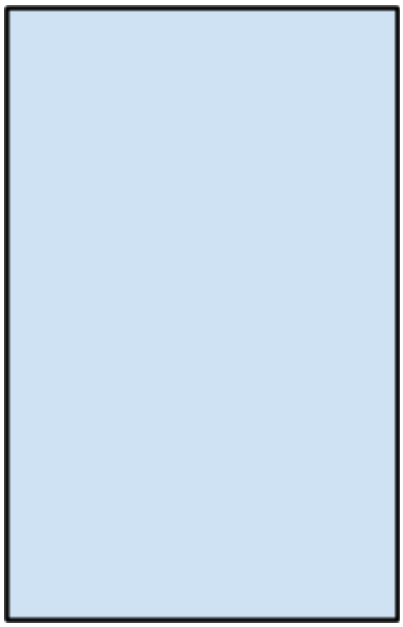
(list opposites in the box)

1. PEACE versus



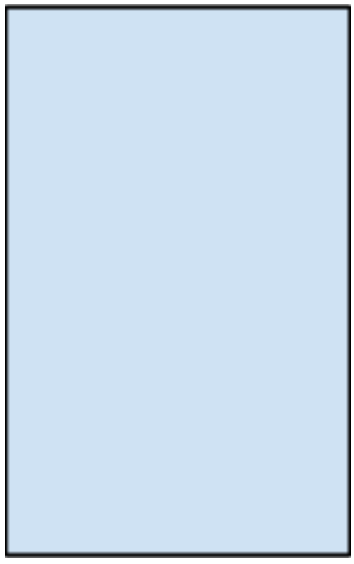
(list opposites in the box)

2. LOVE versus



(list opposites in the box)

3. UNDERSTANDING versus



What would it look like if you based an entire design on one pair of opposites?????

Choose a pair of opposites to use as inspiration for your next challenge. Perhaps it is an opposite to one of the words you listed on the first page…...Try to think of something new and different, unique.

How would you illustrate that difference in a picture? In a scene that uses the entire page?

How would you get the message of the contrast/opposite to your audience using symbolism or color choices?

Use the space below to create two thumbnail sketches. (Envision: plan your idea then work to make the plan a reality in a final design.)

Your goal for this challenge is to find the most creative way to illustrate a pair of opposites. To get full credit for this challenge, you must include:

1. A creative picture of at least two opposites.

2. Design uses the whole paper.

3. Idea goes beyond the basic. It is evident that brainstorming and planning took place to design a concept unique and different from the examples and other ideas in the room.

4. Design illustrates craftsmanship and focused effort.

5. Opposites are written on the back of the design.
